

ROBERT STUART

SENIOR PRODUCT DESIGNER

Vancouver, BC | robert.stuart94@gmail.com | mrrobertstuart.com | linkedin.com/in/mrrobertstuart

SUMMARY

Senior Product Designer with 8+ years of international experience across immersive entertainment, esports and publishing, working across London, UK and Vancouver, BC. End-to-end UX/UI specialist focused on consumer journeys, complex operational products and scalable design systems, from discovery and user research through prototyping and launch.

EXPERIENCE

Sandbox VR | Senior UX/UI Designer

Jul 2023 – Aug 2026

Vancouver, BC

- Led UX/UI across the end-to-end guest journey, including a mobile check-in redesign that cut check-in for a group of 25 from up to 50 minutes to under 2 minutes.
- Designed and launched Silica, the operating platform used by store teams to manage bookings, guest sessions and day-to-day in-venue workflows, simplifying complex operational requirements for staff.
- Created and evolved a design system with reusable components, tokens and interaction patterns; partnered closely with engineering, operations and marketing to improve consistency and delivery across the business.
- Worked with Sandbox VR's content team on guest-facing flows and loadout experiences for Netflix titles including Squid Game, Rebel Moon and Stranger Things, while partnering with marketing and operations teams on membership programs, campaigns and RTL/localization.

Battlefy | Senior Product Designer

Nov 2022 – Apr 2023

Vancouver, BC

- Built Arcade, a foundational design system using Token Studio and Storybook for an esports tournament platform serving 300K+ users, supporting partner experiences across Riot Games, Apex Legends and the NHL.
- Redesigned the homepage to better serve both B2C players and B2B partners.

ESL FACEIT Group (FACEIT) | Product Designer

Apr 2021 – Nov 2022

London, UK

- Designed core play UI, community, growth and monetization experiences for a competitive gaming platform with a 34M-player community.
- Led large-scale redesigns of key player flows and introduced an unranked queue in response to user research, creating a clearer entry point for more casual players.
- Contributed to the FUSE design system and improved internal user-testing workflows; won the 2022 FACEIT Hackathon for Best Project and Best Presentation.

The Telegraph | Product Designer

Jan 2020 – Apr 2021

London, UK

- Led the 0-to-1 redesign and launch of The Telegraph's flagship news app, creating a new mobile experience for subscribers.
- Reinvented Fantasy Fund Manager, refreshing UX/UI and overall gameplay; the investment simulator beat its 10K-player target and reached 14.5K participants.

ESI Media - Evening Standard & The Independent | Digital / Creative Designer

Dec 2017 – Jan 2020

London, UK

- Created Evening Standard Insider from the ground up across brand identity, UX/UI, design system and launch; grew to 6M page views and 2.5M unique users per month.
- Helped create and launch Independent Premium, establishing a new freemium model and building out the iOS and Android app experience with a focus on upselling free users.
